

Content Standard	<p><b>MAFS.8.F Functions</b></p> <p><b>MAFS.8.F.2</b> Use functions to model relationships between quantities.</p> <p><b>MAFS.8.F.2.5</b> Describe qualitatively the functional relationship between two quantities by analyzing a graph (e.g., where the function is increasing or decreasing, linear or nonlinear). Sketch a graph that exhibits the qualitative features of a function that has been described verbally.</p>	
Assessment Limits	<p>Linear or nonlinear relationships may use any of the four quadrants.          Graph descriptions move from left to right.          Functional relationships must be continuous.</p>

<p>Which graph represents a linear function increasing at a constant rate?</p> <p>A. </p> <p>B. </p> <p>C. </p> <p>D. </p>		Multiple Choice

Sample Item	Item Type
<p>Kim rides a stationary bike for fifteen minutes of exercise.</p> <p>Kim starts her ride slow, stops for 2 minutes, and then continues her ride faster than she started.</p> <p>Use the Connect Line tool to create a possible graph of Kim's ride.</p> 	<p>GRID</p>
<p>Mary and Kim go bike riding on some trails. Graphs of the functions representing one of their rides are shown, where <math>x</math> is the time, in minutes, and <math>y</math> is the distance, in miles.</p> <p>Select all statements that are true based on the graphs shown.</p> <div style="display: flex; justify-content: space-around;"> <div data-bbox="214 1255 636 1684">  </div> <div data-bbox="688 1264 1110 1692">  </div> </div> <ul style="list-style-type: none"> <li><input type="checkbox"/> Kim stops for 3 minutes.</li> <li><input type="checkbox"/> Mary stops for 2 minutes.</li> <li><input type="checkbox"/> Mary slows down after minute 8.</li> <li><input type="checkbox"/> Kim and Mary both ride the same distance after 14 minutes.</li> <li><input type="checkbox"/> Mary and Kim both begin the bike ride at the same speed between minutes 0 and 4.</li> </ul>	<p>Multiselect</p>

Sample Item	Item Type
<p>Mary and Kim ride their bikes to school each day. Graphs of the functions representing one of their rides are shown, where <math>x</math> is the time, in minutes, and <math>y</math> is the distance, in miles.</p> <div style="display: flex; justify-content: space-around; align-items: flex-start;"> <div style="text-align: center;"> <p><b>Mary's Ride</b></p>  </div> <div style="text-align: center;"> <p><b>Kim's Ride</b></p>  </div> </div> <p>Write a short story about Mary's bike ride describing the relationship between time and distance. Include information about changes in the behavior of the function and rate of speed using terms such as increasing, constant, and decreasing.</p>	<p>Open Response</p>

Matching Item																
<p>Mary and Kim each take 15 minutes to ride their bikes to school. The graphs of the functions that model their rides are shown, where <math>x</math> is the time, in minutes, and <math>y</math> is the distance, in miles.</p> <div style="display: flex; justify-content: space-around; align-items: flex-start;"> <div style="text-align: center;"> <p><b>Mary's Ride</b></p>  </div> <div style="text-align: center;"> <p><b>Kim's Ride</b></p>  </div> </div> <p>The graphs are divided into time intervals <math>A</math>, <math>B</math>, and <math>C</math>.              Use the graphs to match each statement with the appropriate person or people.</p> <table border="1" style="width: 100%; border-collapse: collapse; margin-top: 10px;"> <thead> <tr> <th style="width: 70%;"></th> <th style="width: 15%; text-align: center;">Mary</th> <th style="width: 15%; text-align: center;">Kim</th> </tr> </thead> <tbody> <tr> <td><b>Rode her bike fastest in interval <math>A</math>, as compared to the rest of her ride</b></td> <td style="text-align: center;"><input type="checkbox"/></td> <td style="text-align: center;"><input type="checkbox"/></td> </tr> <tr> <td><b>Stopped for an interval of time</b></td> <td style="text-align: center;"><input type="checkbox"/></td> <td style="text-align: center;"><input type="checkbox"/></td> </tr> <tr> <td><b>Rode slower in interval <math>C</math> than in interval <math>B</math></b></td> <td style="text-align: center;"><input type="checkbox"/></td> <td style="text-align: center;"><input type="checkbox"/></td> </tr> <tr> <td><b>Lives 0.7 miles from school</b></td> <td style="text-align: center;"><input type="checkbox"/></td> <td style="text-align: center;"><input type="checkbox"/></td> </tr> </tbody> </table>			Mary	Kim	<b>Rode her bike fastest in interval <math>A</math>, as compared to the rest of her ride</b>	<input type="checkbox"/>	<input type="checkbox"/>	<b>Stopped for an interval of time</b>	<input type="checkbox"/>	<input type="checkbox"/>	<b>Rode slower in interval <math>C</math> than in interval <math>B</math></b>	<input type="checkbox"/>	<input type="checkbox"/>	<b>Lives 0.7 miles from school</b>	<input type="checkbox"/>	<input type="checkbox"/>
